

CISC 2305

Programming Assignment 5 (20 Pts)

Due at 10:00 PM Central (MyCampus)

Topics: C# Programming control statements

Write a C# program that displays all the negative numbers in a sequence of numbers inputted by the user. Before reading the sequence of numbers, have the user enter how many numbers will be inputted. For instance, the following (23, 67, -21, 94, -11, -3) consists of 5 numbers and the negative count should return 3.

Bonus (5 pts): Display the number of positive numbers in the sequence.
